

# SATURDAY, JANUARY 24

## Praise!

*"O LORD, our Lord, how majestic is your name in all the earth! You have set your glory above the heavens." Psalm 8*

## PRAYER FOR HEALTHCARE WORKERS

### **Prayer for Healthcare Workers**

We lift up our doctors, nurses, and all medical staff before You. Lord, grant them strength, endurance, and wisdom as they serve the sick and vulnerable. Refresh their spirits and protect their hearts from weariness.

We pray that Christian medical workers will shine as islands of peace and encouragement, reflecting the love of Christ in every interaction. May their words and actions bring hope and comfort to those in need.

### **Prayer for Resources**

Father, we ask for an increase in healthcare resources. Open doors for more doctors and nurses to be hired and establish practices. Make a way for new Canadians who are already trained to be accredited quickly, so they can serve with their skills.

Lord, we bring the backlog of surgeries before You. Please clear these delays so that those who are suffering can receive timely treatment. Restore health and bring relief to every patient waiting for care.

Finally, we pray that everyone will have access to a family doctor. Let no one be left without the care they need. Guide policymakers, administrators, and communities to work together for a system that reflects Your compassion and justice.

We trust You to go before us and make a way. In Jesus' name, Amen.
